EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The Applicants will submit, along with the Issue Fee, Replacement Drawings for Figs. 1 and 2 with a label of Prior Art. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance:

As to Claim 1, the prior art of record taken along or in combination, fails to disclose or render obvious a light receiving fiber disposed outside the rotary section and adapted to receive the optical signal from the light emitting element; and a rotary transformer composed of a primary coil constituted by an annulus which is disposed to surround the rotary section and which is of two-part separable structure and a secondary coil provided at the outer circumference of the rotary section, the rotary transformer being adapted to supply electrical power to the rotary section, in combination with the rest of the limitations of the claim.

The dependent Claims 2-5 are allowed by virtue of their dependence upon Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
